

Hameln Fountain Grass

An attractive grass highlighted by fluffy, buff-colored plumes that arch above the lush, green fountain of foliage. In the fall, the foliage turns a lovely golden russet color. Creates a terrific contrast when used among shrubs or as a backdrop in a perennial bed.

Reaches 2-3 feet tall; 1-2 feet wide.

Full Sun

Water deeply, regularly during first growing season to establish an extensive root system. Once established, water occasionally; more in extreme heat or containers.

- Do fertilize lightly every season, this perennial does not need a lot of extra care.
- Do provide adequate drainage and avoid “clay bowls” that are notorious for holding water and predisposing plants to the compost heap.

- Don't plant in too shady of a site; this perennial will handle full, hot sun.
- Don't prune perennial grass too late in spring or you will cut off the coming season's new growth a chore best done in winter.
