

## Cityline Paris Hydrangea

The tight, compact habit of Cityline Paris hydrangea makes it a well-behaved garden or landscape plant, while its vivid deep red flowers make a bold and stylish statement. One of the smallest hydrangeas on the market, it does not need pruning (in fact, don't prune it at all!) and its deep green mildew-resistant foliage looks handsome all season. Cityline Paris keeps its red color in most any soil, developing only purplish centers in acidic soils.

Reaches 12-24 inches high; 12-36 inches wide.

Partial to Full Sun

Needs regular watering - weekly, or more often in extreme heat.

- Do prune during or directly after flowering; this will insure we are not cutting off future flowers.
- Do provide proper siting. Bigleaf hydrangea are shade oriented plants and need protection from hot afternoon sun.
- Don't place in an exposed, full sun site with minimal access to water.
- Don't forget to provide adequate mulch and annual fertilizer.
