This versatility and demonstrated quality makes The Original hydrangea a must for your garden landscape!

3-4 feet high; 4-5 feet wide.

Partial Shade

Needs regular watering - weekly, or more often in extreme heat.

- Do prune during or directly after flowering; this will insure we are not cutting off future flowers.
- Do provide proper siting. Bigleaf hydrangea are shade oriented plants and need protection from hot afternoon sun.
- Don't place in an exposed, full sun site with minimal access to water.
- Don't forget to provide adequate mulch and annual fertilizer.
