

## Double Knockout Roses

A maintenance free rose that continually produces self-cleaning double flowers with a slight spicy fragrance. Unsurpassed resistance to black spot and downy mildew leaf diseases. A rounded, bushy and well behaved shrub, it makes an excellent low hedge or accent.

Reaches 3-4 feet tall and wide.

Full Sun

Follow a regular watering schedule during the first growing season to establish an extensive root system; then water regularly, when top 3 in. of soil is dry.

**Prune annually in late winter to promote vigorous new growth.**

- Do fertilize annually, along with pruning your rose plantings will reward for many years.
- Do site in full sun, best growth and flower are achieved with afternoon sun.

- Don't neglect to thin the interior over time; the rose family thrives with good air circulation to interior structure.
- Don't neglect to provide adequate drainage and avoid "clay bowls" that are notorious for holding water and predisposing plants to the compost heap.
